The Difference in Training

Ahhtt!!

Is Black and White

BOSS Dog Clinics differ greatly from conventional obedience-based methods by actually teaching positive social behaviors that dogs need and owners want. Taught in a common sense, no gimmicks, no frills way that's easy to learn and apply, dogs display desired behaviors quickly. **Guaranteed** to build a successful and happy relationship with the dog you love. Course is taught by **Susan Overfield** of Overfield Kennels, author, national speaker, and dog behavioral instructor with **40 years hands on experience**. Whether you have a new puppy, have raised your dog, adopted your dog, or rescued your dog—a well-behaved dog is what owners really want and can learn how to get in a day, **guaranteed!** www.aahhtt.com
