

SHELTER EVACUATION CHECKLIST

If you must evacuate your shelter, do you:

- Have an alternative location out of the danger area that is readily accessible?**

- Have adequate transportation, preferably 4-wheel drive, available to accommodate moving a large number of animals?**

- Have sufficient leashes and collars of various sizes for the maximum number of dogs housed in your facility?**

- Have enough portable cages and carriers to transport the maximum number of cats housed in your facility?**

- Have a core of trained volunteers who can assist the staff in moving the animals to another location?**

- Have foster care arrangements made available if an alternate location is not feasible?**

- Have staff and volunteers trained to handle and care for the animals safely and efficiently in a crisis?**

- Have readily accessible the supplies needed to care for the animals in their alternate location, such as food, water, bowls, first aid, medications, etc.?**
